LINH LUONG

I'm a Junior Graphic designer and Illustrator based in Prague, the heart of Europe.

I love turning ideas into visual experiences. From logos, brands, advertising to print and illustrations, I'm all about making designs that connect and inspire. Let's meet up over a warm cup of coffee and talk about our visions!

Hi! I was born in the Czech Republic to Vietnamese parents, and growing up, I've been finding my way between two very different cultures. Learning more about my Asian roots while living in the central Europe has shaped who I am, and I try to show that in my work. My designs often reflect my journey of exploring and understanding my identity.

I love diving into gastronomy and coffee culture—there's nothing better than a good meal or a perfect cup of coffee! I'm also a big fan of analog cameras, vintage style, and spending time with my doggo.

For me, creativity is all about expressing myself and sharing a little piece of my story with others.
